ARCHITECTURAL

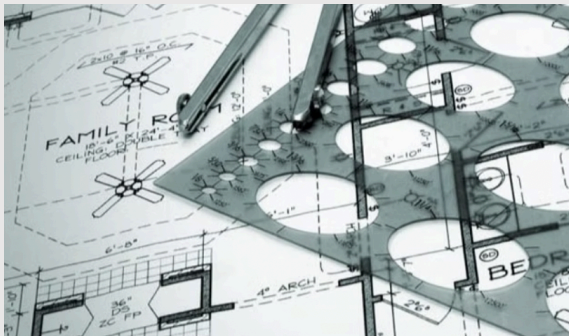

Bringing your vision to light

Empowering architects, interior designers, and builders through architectural lighting design and sourcing services. Our mission is to provide high-quality lighting solutions that enhance the beauty and functionality of any space. With over 20 years of experience in the lighting industry, we have the expertise and resources to meet the unique needs of our clients. Let us help you bring your vision to light.

Our Services

We believe that every lighting project is unique and requires a customized approach. Our team of experts will work with you from the initial design phase to the final installation to ensure that your project is completed on time and within budget. We take pride in our attention to detail and our commitment to quality.

Lighting Design

Lighting design is not just about illuminating spaces; it's about crafting environments, enhancing experiences, and optimizing functionality. Our expert lighting designers bring creativity, technical expertise, and a deep understanding of architectural aesthetics to every project.

Product Selection

With countless lighting options available on the market, navigating through the myriad of choices can be overwhelming. Our team of experts understands the complexities of architectural lighting and is dedicated to helping you find the perfect solution for your project.

Value Engineering

We are obsessed with design, quality and performance. However, our wide range of products, from multiple manufacturers, enable us to find product alternatives that fit every budget.

Our Products

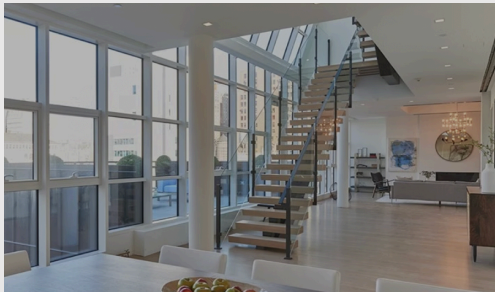

Modular Systems

Innovative slim linear connecting system, a perfect combination between tracks and LED fixtures. Uniquely designed spot, panel and downlight modules for multi-task lighting requirements.

Linear Lighting

Linear recessed, surface mounted or suspended LED luminaires. Can be used as standard fixtures or can be connected to produce continuous runs in a variety of shapes.

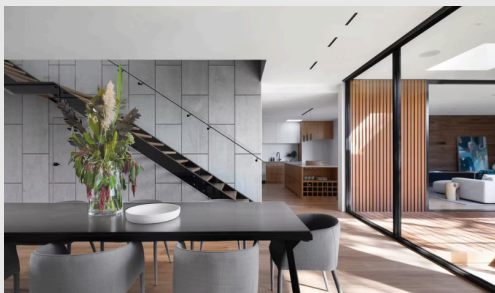

Recessed Downlights

A curated collection of architectural recessed downlights combining high design and functionality to suit any space. Multiple options including deep regress, gimbals, ultra slim, thin trim, trimless and more. Using the latest LED technology for high performance and efficiency.

Cove Lighting

The soft, diffused light creates a more inviting and comfortable atmosphere. Cove lights highlight architectural features, such as columns, beams and moldings, while adding ambient light to enhance the visual appeal of a space.

Multiple Recessed

Wide range of regular and slim recessed downlights designed for ultra-low glare performance. Create modern and clean looks with these innovative multi downlight designs.

Outdoor& Landscape

Wide range of professional grade outdoor and landscape fixtures tested to resist the elements.
